CARE OF WOUNDED**

Committee of Surgeons to Have
Charge of Men Not in
Hospitals.

An organization of physicians and surgeons to aid and advise sick and wounded ex-service men who are not under Government care in hospitals has been formed by the New York County Committee of the American Legion. A supervising committee called the "Triage Committee," of three is to consist of Dr. Curtin G. Glette, Dr. Fenwick Beckman and Dr. E. M. Coll Jr. This committee will consult with and

examine the former soldier and refer him to one or more members of a consulting committee, who is to report back the disposition made of the patient within twenty-four hours. The chiefs of service of the Consulting Committee are the following:

Medicine, Dr. Harlow Brooks; orthopedic surgery, Dr. Brainerd H. Whitbeck; surgery, Dr. Joseph A. Blake; otolaryngology, Dr. Richard T. Atkins; ophthalmology, Dr. Conrad Berens Jr.; urology, Dr. James Byard Clark; neurology, Dr. A. Schuyler Clark; dermatology, Dr. C. Burns Craig; pathology, (to be chosen); roentgenology, Dr. Archibald Evans; oral surgery, Dr. Henry S. Dunning.

The Legion is arranging to put in the hands of trustees, to be selected from among men who have had large financial experience, a fund yet to be raised,

which will defray all expenses. The donations of State bonus money by service men are expected to form the nucleus of this fund.

Jersey Counties Get Less for Road Repairs.

County road officials in New Jersey will receive less from the motor vehicle tax fund this year than normally, they were informed to-day by George L. Burton, Chairman of the State Highway Commission. Chairman Burton said the old Highway Commission had taken over sole responsibility for 525 miles of roads all in great need of repairs, and the cost must be deducted from the vehicle tax fund before it is divided among the counties.

To Protect Medicinal Whiskey. WASHINGTON, Jan. 2.—A bill designed to prevent the adulteration of

the sick man's liquor was introduced to-day by Representative Vane, Republican, of Pennsylvania. Specifically, it would stop the manufacture and sale for medicinal purposes of whiskey containing less than 46 per cent. of alcohol.
